1. Objective

The objective of this manual is to provide a systematic guideline for the approval, establishment, and regulation of Hot Mix and Redimix Plants in Uttarakhand. It ensures applicants comply with environmental, operational, and legal standards as mandated by the Directorate of Geology and Mining.

2. Scope

This manual applies to all individuals and entities applying to install or operate Hot Mix/Redimix Plants within Uttarakhand. It includes eligibility criteria, application processes, documentation requirements, environmental compliances, and process flows essential for license issuance.

3. Compliance Requirements

All applicants must comply with the following technical and administrative conditions:

1. Possess land ownership or a legal lease/NOC of the installation site.

2. Ensure the site complies with all environmental and distance norms.

3. Install CCTV for monitoring the operations.

4. Maintain a daily log of material stock and movement.

5. Operate only during daylight hours (from 6:00 AM to 6:00 PM).

6. Install digital display systems to show current stock and other operational data.

7. Declare all vehicle data in the system.

8. Minimum 90% of extracted mineral stock must be disposed of within 30 days of extraction.

4. Required Documents

The following documents must be uploaded in PDF format during application:

- Ownership proof / rent deed of land

- Treasury Challan Receipt (₹25,000)
- Land ownership proof or lease agreement
- sworn certificate of source of objection of raw material
- Identity & Residential Proof of Applicant (Aadhaar, PAN, etc.)

- Undertaking on compliance with operation and CCTV requirements

- Character Certificate, Khaasra, Khatauni, Affidavit regarding no commercial tax dues

- Character Certificate, Address proof, Notarized affidavit regarding illegal mining/storage/transportation
