The screenshot shows the 'create new account' form on the 'Services For Citizen' portal. The form includes fields for Name, Email, Phone Number, Password, Password Confirm, District (a dropdown menu), and Address. A 'SIGN UP' button is located at the bottom of the form. The background of the page features a sunset over a mobile stone crusher and screening plant.

2. Login Procedure

1. **Visit:** Go to <https://eservices.ukmdtss.in>.
2. **Email:** Enter your registered email ID.
3. **Password:** Enter your account password.
4. **Stay Signed In (optional):** Tick the checkbox if needed.
5. **Sign In:** Click the **Sign In** button to log in.

The screenshot shows the login page on the 'Services For Citizen' portal. It features a 'Sign in' form with fields for Email (pre-filled with 'testuser@gmail.com') and Enter your password. There is a checkbox for 'Stay signed in - Forget your password?' and a 'SIGN IN' button. Below the form, there is a link: 'Don't have an account? Create one!'. The page also displays a grid of service icons including Agriculture Land, Revenue Land, Private Ground, Basement, Commercial Soil, Soil Personal Use, Stone Crusher, and Mining Plan. The background features a sunset over a mobile stone crusher and screening plant.

1. Objective

The module facilitates the registration and regulation of mobile stone crushers and screening plants used for crushing and screening stones into aggregates, grit, and sand for construction purposes. It ensures regulatory compliance and environmental safeguards.

2. Scope

This manual is intended for:

- Individuals or companies applying to install and operate mobile crusher or screening units.
- District-level officers and inspectors responsible for reviewing and approving applications.
- Stakeholders ensuring compliance with mineral and environmental regulations.

3. Eligibility Requirements

To be eligible for operating a Mobile Stone Crusher or Screening Plant, the applicant must:

1. Possess land ownership or a legal lease/NOC of the installation site.
2. Ensure the site complies with all environmental and distance norms.
3. Install CCTV for monitoring the operations.
4. Maintain a daily log of material stock and movement.
5. Operate only during daylight hours (from 6:00 AM to 6:00 PM).
6. Install digital display systems to show current stock and other operational data.
7. Declare all vehicle data in the system.
8. Submit a declaration regarding the source of raw material and mineral.

4. Required Documents

The following documents must be uploaded in PDF format during application:

- Ownership proof / rent deed of land
- Site plan with coordinates

- Pollution Control Board NOC
- Photographs of the site
- Declaration of mineral source
- Lease deed or MM-11 form
- Undertaking on compliance with operation and CCTV requirements
